

A wide-angle photograph of the Seattle skyline at sunset. The Space Needle stands prominently in the center-left. The sky is filled with warm orange and yellow hues from the setting sun, transitioning into cooler blues and purples. In the distance, the majestic Mount Rainier is visible, its peak capped with snow. The city's buildings, from small residential units to large office towers, are silhouetted against the bright sky. A few birds are scattered across the upper right portion of the frame.
